| Standsaule | Results for past month, mill crushed —— tons (2,000 lbs.); yielded —— ounces bullion; estimated value, ——; cyanide treated —— tons (2,000 lbs.), yielded —— ounces bullion; estimated value, ——; total output, —— ounces; bullion equal to —— ounces fine gold. Slags, ——; approximate cost, mining and transport, ——; milling, ——; cyanide, ——; development, —— |
| Standvogel | For the month just ended have crushed —— tons (2,000 lbs.). The value of the total gold recovered is ——. The expenditure on revenue account is ——. The expenditure on development and capital account is ——, of which amount —— is in connection with new work. Net surplus at end of last month —— |
| Staneremo | For the month just ended have crushed —— tons (2,000 lbs.). The value of the total gold recovered is ——. The expenditure on revenue account is ——. The expenditure on development and capital account is ——, of which amount —— is in connection with new work. Net liabilities at end of last month—— |
| Stangaron | During —— the mill worked —— days, yield being as follows: Bullion ——, concentrates realized ——, concentrates in process of realization ——; total ——. The working expenses for the month were ——. We have also spent on development work during the month —— |

Stangasti ... Cable full particulars of estimated run for month: Working expenses, extraneous expenses, expenditure chargeable to capital, value of bullion and concentrates on hand and in transit, value of stores on hand, estimated total assets and liabilities, state of bank account, all approximate for end of month. State how much you will be able to remit on account of the month's profit. Give approximate tonnage and average value of ore reserves at end of month. We wish you to cable the above information on the ——

Stangavamo The following are the particulars you require: Working expenses ——; extraneous expenses, ——; expenditure chargeable to capital ——; value of bullion and concentrates on hand and in transit ——; value of stores on hand ——; estimated total assets ——; estimated liabilities ——; the bank balance amounts to ——. Shall be able to remit on account of the month's profit ——. There are —— tons of ore average value —— in reserve. All the foregoing figures are approximate

Stangelig ... Number of tons (2,000 lbs.) crushed ——. Assay of same ——. Returns from concentrates ——; returns from sands ——; returns from slimes ——; total costs (mining, transport, reduction, &c.) ——; profit in —— for ——month ——; cash requirement for —— month ——; estimated returns for —— month ——; estimated cost for —— month ——; estimated cash requirement for —— month ——

Stangellos Results for past month, the —— stamp mill worked —— hours, crushing —— tons (2,000 lbs.), which yielded —— ounces gold; the cyanide plant treated —— tons (2,000 lbs.) of tailings, yielding —— ounces gold; total, —— ounces; estimated value, ——

Stangentau Results for past month, crushed —— tons (2,000 lbs.) of ore, yielding bullion (including tailings cyanided ——, and sulphurets ——) to the estimated value of ——, or —— per ton; expenses, ——, or —— per ton; profit, ——, or —— per ton; expenditure on development, not included in above expenses, ——

Stangherai Results for past month, —— stamps ran —— days, crushing —— tons (2,000 lbs.) of ore, producing —— ounces of bullion, having an estimated gross value of ——; concentrates on hand —— tons (2,000 lbs), valued at ——; concentrates shipped, —— tons (2,000 lbs.), valued at —— gross

Stanghiamo Results for past month, —— tons (2,000 lbs.) were crushed during ——, yielding —— ounces; —— tons (2,000 lbs.) cyanided, yielding —— ounces; total estimated value, ——; estimated net profit, ——; capital expenditure deducted, ——

## SUNDRY MILLING RETURNS.

Stangkogel Results for past month, —— tons (2,000 lbs.) crude ore produced —— tons (2,000 lbs.) concentrates, containing approximately —— tons (2,000 lbs.) lead and —— ounces silver

Stangonavi Results for past month, —— plant in —— days treated —— tons (2,000 lbs.), producing cyanide precipitates estimated to realize ——; general maintenance expenditure, ——; treatment, ——; estimated profit, ——

Stangonera Results for past month, —— stamps in —— days crushed —— tons (2,000 lbs.), of ore, producing ——, working expenses, ——; estimated profit ——. Expenditure on development, amounting to ——, is not included in above figures

Stangstoot Results for past month, average total sluiceheads of water available from all sources, —— heads; rainfall during period —— points; overburden removed, —— cubic yards; black tin cleaned up —— tons (2,000 lbs.)

Stangtrens Results for past month, —— tons (2,000 lbs.) of ore were milled, producing —— tons (2,000 lbs.) of leady concentrates, also —— tons (2,000 lbs.) of middlings and —— tons (2,000 lbs.) of tailings were treated, producing respectively —— and —— tons (2,000 lbs.) of zinc concentrates

Stanielry ... Results for past month, ore treated, —— tons (2,000 lbs.). Total receipts, ——; expenses, ——; profit, ——

Stanitzel ... Results for past month, —— stamp mill ran —— days, and —— stamp mill ran —— days; crushed —— tons (2,000 lbs.) ore; estimated realizable value of bullion, ——; saved —— tons (2,000 lbs.) sulphurets; estimated realizable value of same, ——; working expenses, ——

Stankerei ... Results for past month, —— stamp mill ran —— days and crushed —— tons (2,000 lbs.) ore, estimated to yield ——; saved —— tons (2,000 lbs.) sulphurets, estimated to realize ——; working expenses, ——

Stankkugel Results for past month, crushed —— tons (2,000 lbs.) yielding ——; expenses, revenue account, ——; prospecting and development ——; repairs, ——; total amount of expenditure, ——

Stannamyl — Results for past month, crushed —— tons (2,000 lbs.) of ore, approximate value, ——; —— tons (2,000 lbs.) of concentrates were produced, approximate value, ——; tailings retreated produced —— tons (2,000 lbs.) of concentrates, approximate value, ——; expenditure, inclusive of development, but exclusive of payments on capital account, ——

Stannatio... — Results for past month, the No. —— mill ran —— days; the No. —— mill ran —— days, and together crushed —— tons (2,000 lbs.) of ore, producing ——; less working expenses, ——; development expenses, ——, equal to —— per ton; net, ——; profit from the railway for the month, ——, making a total of ——, equal to ——; less estimated monthly Head Office expenses and manager's salary ——. The sum of —— was expended during the month on permanent improvements

Stannatum — Results for past month, the mill ran —— days and crushed —— tons (2,000 lbs.) of dry ore; shipped to smelter —— tons (2,000 lbs.) of dry ore; estimated realizable value of bullion produced, ——; concentrates, ——; ore shipped to smelter, ——; receipts from rents and other sources, ——; total revenue, ——; working expenses, including development, marketing of bullion, and freight and treatment charges on ore shipped to smelter, ——; allowance for depreciation of plant, ——; consulting engineers' fees and office expenses, ——; total expenses ——; surplus, ——; Head Office expenses, ——; estimated profit, ——. Of this there has been expended on construction account, ——

## SMELTING RETURNS.

NOTE:—One Ton = 2,000 lbs.

Stannatura — Return for —— month: Ore treated —— tons; production —— tons of matte, containing —— tons fine copper. Have shipped since last return —— tons matte; estimated value ——

Stanneis ... — Results for past month: Smelter ran —— days and smelted —— tons of own ore and —— tons of customs ore; total —— tons; matte produced from same —— tons; gross value of contents (copper, silver, and gold), after deducting costs of refining and purchase of customs ore, ——

Stanneorum — From —— to —— inclusive, a total quantity of —— tons of ore has been treated. In addition to the above there have been treated —— tons of purchased ore and metal-bearing fluxes. The converters have produced during the same period —— tons of blister copper, containing: Copper —— tons, silver —— ounces, gold —— ounces

Stannethyl — For the period ended —— the smelting plant treated —— tons copper ore and —— tons lead ore; purchased —— tons copper ore and —— tons lead ore; total —— tons copper ore and —— tons lead ore, producing —— tons copper matte, —— tons lead bullion, containing —— tons copper, —— tons lead, and —— ounces silver

Stannides ... — For the period ended —— the smelting plant treated —— tons of own copper ore; purchased —— tons copper ore; total —— tons copper ore, producing —— tons copper matte, containing —— tons copper and —— ounces silver

Stannique... — Returns for —— week(s) ended ——: Ore raised —— tons; pig lead smelted —— tons; average price obtained for lead sold —— per ton net

Stantario ... — The silver-lead bullion shipped during —— contained about —— tons of lead, —— ounces of silver, and —— ounces of gold

Stanteche... — During the past month —— tons of leady concentrates, —— tons of residues, and —— tons of purchased ores were smelted, yielding —— tons of lead, containing —— ounces silver and —— ounces gold. There were also treated —— tons of zinc concentrates, producing —— tons of spelter

Stanterolo — During the past month have treated —— tons of zinc concentrates, producing —— tons of spelter

Stantuffo ... — During the past month have treated —— tons of zinc concentrates, producing —— tons of spelter. Stock of spelter on hand —— tons

## DREDGING AND SLUICING RETURNS.

Stanzaccia — For the week ended —— the dredge worked —— hours and recovered —— ounces gold. Dredge No. —— worked —— hours and recovered —— ounces gold

Stanzaite ... — During the past month the company's dredge(s) recovered —— ounces gold. The gold recovered during the —— weeks ended —— has realized ——

| | |
|---|---|
| Stanzend ... | The returns from dredger —— for the past month amount to —— ounces of gold, valued at ——, making a total since the commencement of operations of —— ounces of gold, valued at —— |
| Stanzerai ... | Returns for ——: No. —— dredge, working —— hours, recovered —— ounces; No. —— dredge, working —— hours, recovered —— ounces; total —— hours, —— ounces; total value —— |
| Stanziale ... | Gross dredging returns week ended —— are equal to ——, bringing up the total to —— since —— |
| Stanziando | During the week ended —— the dredge(s) recovered —— ounces gold |
| Stanziassi... | During the week ended —— the company's dredge(s) recovered —— ounces gold; making total for —— days —— ounces |
| Stanziava... | During the past month (—— weeks) the company's dredges recovered —— ounces gold. No. —— dredge worked —— days, and Nos. —— and —— dredges —— days each respectively |
| Stanziero ... | Returns for the past month: No. —— dredge —— ounces; No. —— dredge —— ounces; total —— ounces |
| Stanzietta | During the past month the No. —— dredge worked —— hours and recovered —— ounces of gold; the No. —— dredge recovered —— ounces gold as a result of —— hours work; total production, —— ounces gold, valued at —— |
| Stanzione... | Clean up for —— from dredges Nos. —— and ——: Hours worked ——, gold recovered —— ounces; approximate value —— |
| Stanzuccia | During the past month —— ounces of gold, valued at ——, were produced by No. —— dredge |
| Stapediano | During the past month have washed —— cubic yards of gravel, yielding —— ounces of gold |
| Stapedien... | During the past month —— ounces of gold, valued at ——, were recovered from the working of surface gravels |
| Stapedius... | Gross returns for week ended ——, amount to —— |
| Stapeldol ... | For week ended —— the prospecting dredge worked —— hours and recovered —— ounces of gold; No. —— dredge worked —— hours and recovered —— ounces of gold |

## DIAMOND WASHING RETURNS.

| | |
|---|---|
| Stapelende | Recovered —— carats diamonds |
| Stapelgek ... | Report for week ended ——: Work stopped —— days; —— loads were washed for the remaining —— days for —— carats |
| Stapelhof ... | Week ended ——: —— loads washed produced —— carats, including —— |
| Stapelkeil | Week ended ——: —— loads washed produced —— carats, including —— carat stone(s) of fair quality. Total to ——, —— loads produced —— carats |
| Stapelmatz | Blue ground, —— loads washed, —— carats recovered; realized —— |
| Stapelstad | Output for ——: Loads washed (—— days) ——, yielding —— carats, equal to —— carats per —— loads. Loads of blue ground floored ——, making a total of —— loads on floors |
| Stapelzot ... | Output for past month: Loads of blue ground washed ——, yielding —— carats, equal to —— carats per 100 loads. Blue ground floored —— loads, making —— loads on the floors. Trial wash-up has resulted in a yield of —— carats from —— loads of gravel washed, which have been sold for ——, to which must be added —— carats recovered in picking, sold for —— |
| Stapfen ... | Diamonds registered by the diggers for —— amount to —— |
| Staphidi ... | Output for past month: Loads washed, mine ground ——, overburden ——, yielding —— carats; in addition, —— carats were recovered from Pulsator residues; total for month —— carats |
| Staphylam | Results for past month: —— loads washed, yielding —— carats, equal to —— carats per 100 loads. Total output to date —— loads washed, yielding —— carats |

| | |
|---|---|
| Staphylio ... | Final results to end of ——: —— loads washed, producing —— carats, equal to —— carats per load; value per carat ——. The quantity washed is ——, owing to —— |
| Staphylus... | Summary of work done for —— weeks ending ——. Have washed —— loads of screenings, estimated yield —— carats; also —— loads of blue ground, estimated yield —— carats |

## BOREHOLE RETURNS.

| | |
|---|---|
| Stapiam ... | Borehole is approximately vertical |
| Stapparono | Borehole is approximately horizontal |
| Stapperai ... | Borehole No. —— finished |
| Stapswijs ... | Borehole previously referred to as |
| Staramsel ... | Borehole No. —— has been continued —— feet |
| Staranise ... | Borehole No. —— has been stopped at a distance in of —— feet |
| Starebbe ... | Borehole No. —— has been continued —— feet, equal to a horizontal distance of —— feet |
| Staremmo... | Borehole No. —— has been continued —— feet. Country passed through since last report ——. Hole still being continued |
| Starent ... | Borehole No. —— has been continued —— feet. Country passed through since last report ——. Hole stopped |
| Staretis ... | Borehole No. ——. Direction ——. Inclination —— degrees from the horizontal. Now in —— feet |
| Starflug ... | Borehole No. ——. Direction ——. Inclination —— degrees from the horizontal. Now in —— feet. Country passed through —— |
| Stargewelf | Borehole No. —— bottomed at —— feet, on —— feet of heavy wash |
| Starhaufen | Borehole No. —— has proved —— feet of wash carrying gold. Is now down an additional —— feet in —— |

## DEEP LEADS.

| | |
|---|---|
| Stariki ... | Plant ran —— days —— hours, pumping —— gallons of water. Firewood consumed —— tons |
| Stariques ... | For the period ending ——, have raised —— gallons of water |
| Starkasten | Pressure —— lbs. per square inch at bore No. —— |
